NUPRESS NU-POINT

CLASSY AND SOPHISTICATED - POINT SUPPORTED WALL SYSTEM

Elevate your next project with our cutting-edge spider fittings, designed for creating stunning, seamless glass facades. Our spider fittings are engineered for superior performance, offering both aesthetic flexibility and enduring reliability. With easy installation and minimal maintenance, they provide a practical yet elegant solution that meets the highest standards of safety and durability. Our spider fittings bring modern sophistication and transparent elegance into any project.

- 316 stainless steel
- Capable in both gravity loaded and suspended wall designs
- Capable for curved or planar walls when used with Nupress articulating glass fittings
- Capable for walls of various heights and widths and overhead glazing applications
- Counter-sunk hardware
- Embedded fittings to use with monolithic, laminated and insulated glass (double and triple glazed)
- Heavy Duty and Standard sizes available
